

MORNING ROUTINE

Priming & Energy

6:00-6:30 AM — WAKE & ACTIVATE

TIMING: Immediate upon waking (<2 min)

- ☐ **6:00 AM: No phone/screens** (preserve dopamine)
- ☐ **6:00 AM: Get out of bed immediately**
- ☐ **6:00-6:10 AM: Morning sunlight** (5-10 min, bare eyes, even cloudy: 10-20 min)
- ☐ **6:10-6:15 AM: Warm water + lime** (500ml)
- ☐ **6:15-6:30 AM: Meditation/Breathing** (10-15 min - Box breathing or Anulom-Vilom)

6:30-7:30 AM — EXERCISE

TIMING: Choose ONE: Strength OR Cardio OR Recovery

- ☐ **6:30-6:40 AM: Pre-workout prep** (transition, L-Tyrosine optional, mental prep)
- ☐ **6:40-7:20 AM: Strength Training** (3-4 exercises, 3-4 sets, 8-12 reps, 30-45 min)
- ☐ **6:40-7:20 AM: Zone 2 Cardio** (30-40 min, 60-70% max HR)
- ☐ **6:40-7:20 AM: Recovery Day** (Surya Namaskar/stretching, 20-30 min)

- ☐ **7:20-7:30 AM: Post-workout cool-down** (wait 10-15 min before shower - light stretch, hydrate, breathe)

7:30-8:00 AM — SHOWER & SKIN CARE

 *TIMING: 90-120 minutes after waking (optimal cortisol interaction)*

- ☐ **7:30-7:45 AM: Shower** (cold exposure optional, 2-3x/week - NOT after strength training)
- ☐ **7:45-7:55 AM: Skin care** (Face wash → Vitamin C serum → Moisturizer → Sunscreen SPF 30+)
- ☐ **7:55-8:00 AM: Green tea** (90-120 min after waking, antioxidants, L-theanine)

8:00-8:45 AM — DEEP WORK

 *TIMING: After green tea & warm bath - peak cognitive performance*

- ☐ **8:00-8:45 AM: Deep work session** (45 min - most challenging tasks first)
- ☐ **Phone in another room** (minimize distractions)

BREAKFAST (8:45-9:15 AM)

 *TIMING: 2:45-3:00 hours after waking. Break fast 16-18 hours after last meal (if 16:8 IF)*

- ☐ **8:45-9:00 AM: High-protein meal** (30-40g protein, 10-15g fiber, 15-20g healthy fats, 40-60g complex carbs)
- ☐ **9:00-9:15 AM: Post-breakfast walk** (15 min - glucose disposal, insulin sensitivity) OR can be done during 10:45-11:00 AM break

MORNING SUPPLEMENTS (8:45-9:00 AM with breakfast)

- ☐ Vitamin D3 (2000 IU) - with fat-containing meal
- ☐ Vitamin C (500mg)
- ☐ Omega-3 (800mg EPA/DHA)
- ☐ Turmeric/Curcumin (1g)
- ☐ CoQ10 (100mg)
- ☐ NR/NMN (375mg/500mg)
- ☐ Spermidine (10mg)

9:15-12:00 PM — PEAK COGNITIVE WORK

***TIMING:** Peak cognitive performance window. 90-minute focus blocks with 15-minute breaks.*

- ☐ **9:15-10:45 AM: Deep work session 1** (90 min - most challenging tasks first, active recall, spaced repetition, Feynman technique)
- ☐ **10:45-11:00 AM: Break + Snack** (15 min - stand, stretch, hydrate, 20-20-20 rule, post-breakfast walk if not done, sunlight exposure. Snack if needed: Greek yogurt, mixed nuts, fruit, cottage cheese, roasted chickpeas)
- ☐ **11:00 AM-12:00 PM: Deep work session 2** (60 min - focus work/study, active recall, spaced repetition, practice problems)

AFTERNOON ROUTINE

Performance & Maintenance

LUNCH (12:00-1:00 PM)

 **TIMING:** 12:00-12:30 PM (Prep/Bring/Buy), 12:30-12:45 PM (Eat). Within 4-6 hours from breakfast (8:45 AM = 12:45 PM latest)

- ☐ **12:00-12:15 PM: Apple Cider Vinegar + Psyllium husk** (with warm water, before meal)
- ☐ **12:30-12:45 PM: High-protein meal** (25-35g protein, 10-15g fiber, steamed vegetables, fermented foods, complex carbs)
- ☐ **12:45-1:00 PM: Post-lunch walk** (10-15 min - glucose disposal, prevents energy crash)

LUNCH SUPPLEMENTS (12:30-12:45 PM with meal)

- ☐ Vitamin K2 (600 mcg)
- ☐ Garlic extract (2.4g)
- ☐ Magnesium (400mg) - if not evening
- ☐ B Complex (½ pill, Mon & Thurs only)

1:00-2:00 PM — LIGHT WORK

 **TIMING:** Lighter cognitive tasks after lunch

- ☐ **1:00-2:00 PM: Lighter cognitive tasks** (email, admin, meetings, review notes)

2:00-2:15 PM — ENERGY BOOST

 *TIMING: Manages natural 2-3 PM circadian dip*

- ☐ **2:00-2:15 PM: Green tea with lemon** (antioxidants, gentle caffeine, L-theanine)
- ☐ **Break activities** (stand, stretch, hydrate, 20-20-20 rule, social connection)

2:15-3:30 PM — COLLABORATIVE WORK

 *TIMING: 75-minute collaborative block*

- ☐ **2:15-3:30 PM: Collaborative work/study groups** (study group discussion, teaching others, group problem-solving)

3:30-4:00 PM — NSDR & RECOVERY

 *TIMING: CRITICAL - Do before 4 PM. Consolidates morning learning. Addresses 2-3 PM circadian dip.*

- ☐ **3:30-3:50 PM: NSDR/Yoga Nidra** (10-20 min - YouTube NSDR, guided meditation, or deep breathing)
- ☐ **3:50-4:00 PM: Mid-afternoon snack** (if needed - nutty pudding, fruit chaat, roasted makhana, dark chocolate 15g)
- ☐ **Optional: Cold exposure** (2-3 min cold shower - if not done in morning)

4:00-5:00 PM — WORK WRAP-UP

 *TIMING: Transition from work to evening*

- ☐ **4:00-5:00 PM: Work wrap-up** (plan next day - 3-4 key tasks, journal reflection - what

went well, what to improve)

5:00-6:00 PM — PHYSICAL ACTIVITY

TIMING: Pre-dinner preparation

☐

5:00-5:15 PM: Light stretching/yoga (10-15 min)

☐

Walk or commute (if applicable)

☐

OR Evening workout (if morning missed - strength 3-4x/week, Zone 2 cardio 3-4x/week)

☐

Hydration (500-750ml water, avoid heavy snacking)

KEY REMINDERS:

- *NSDR before 4 PM for memory consolidation*
- *Post-meal walks enhance glucose disposal*
- *Stay hydrated throughout afternoon*

EVENING ROUTINE

Recovery & Reflection

6:00-7:00 PM — PERSONAL TIME

TIMING: 60-minute personal preparation block

6:00-7:00 PM: Personal time (evening review/study optional - light cognitive load, review notes, spaced repetition, light reading, hydration 500-750ml water)

DINNER (7:00-8:00 PM)

TIMING: 7:00-7:30 PM (optimal). 3-4 hours before bedtime (9:30-10:00 PM). Lighter meal than lunch.

7:00-7:15 PM: Apple Cider Vinegar + Psyllium husk (with warm water, before meal)

7:15-7:30 PM: Lighter meal (25-35g protein, 10-15g fiber, 10-15g healthy fats, 30-40g lower carbs - supports sleep. Include: steamed vegetables, fermented foods - broccoli, cauliflower, leafy greens, sauerkraut, kimchi, yogurt)

7:30-8:00 PM: Family time / Play with daughter

8:00-8:15 PM: Post-dinner walk (15 min - glucose disposal, prevents energy crash, light stretching 5-10 min)

8:15-8:30 PM — SKIN CARE

TIMING: 15-minute evening skin routine

☐ **8:15-8:30 PM: Skin care** (Cleanse → Retinol/Niacinamide alternate nights → Moisturizer → Eye cream)

8:30-9:00 PM — WIND-DOWN

 **TIMING:** *DIGITAL SUNSET begins - No screens 2 hours before bed (7:30 PM cutoff for 9:30 PM bedtime)*

- ☐ **Blue light blocking** (glasses/filters if screens needed)
- ☐ **Dim lights** (warm, dim lighting - candles, salt lamps)
- ☐ **Herbal tea** (chamomile, tulsi, passionflower)
- ☐ **Light reading** (physical book, not digital)
- ☐ **Journal & gratitude** (review day, plan tomorrow breakfast/lunch/dinner and tasks, 3 things grateful for)
- ☐ **Gentle stretching/yoga** (if not done earlier)

EVENING SUPPLEMENTS (9:00 PM)

 **TIMING:** *30 minutes before target bedtime*

- ☐ Ashwagandha (600mg) - stress management, cortisol reduction
- ☐ Magnesium (400mg) - glycinate/citrate - muscle recovery, sleep quality
- ☐ L-Theanine (200mg) - if anxious

9:00-9:30 PM — SLEEP PREP

 **TIMING:** *Final 30 minutes before sleep. Target bedtime: 9:30-10:00 PM (3-4 hours after dinner at 7:00-7:30 PM)*

- ☐ **Sleep environment optimization** (cool 65-68°F/18-20°C, dark - blackout curtains/eye mask, quiet - earplugs/white noise)
- ☐ **No electronics** (phone in another room or airplane mode)
- ☐ **Prepare tomorrow's clothes** (reduces morning decision fatigue)
- ☐ **9:00-9:30 PM: Deep breathing/meditation** (5-10 min - Box breathing, 4-7-8 breathing, body scan)
- ☐ **Target bedtime: 9:30-10:00 PM** (7-9 hours sleep, consistent wake time ± 30 min, critical for circadian rhythm)
- ☐ **Optional: Melatonin (300 mcg)** - only if sleep issues persist (try optimizing environment first)

SLEEP ESSENTIALS:

- 3-4 hours after dinner
- 7-9 hours total sleep
- Consistent bedtime/wake time (± 30 min)
- Cool, dark, quiet environment
